NEW K-D TOOLS®
“Long-Life”
**PISTON RING
COMPRESSOR**

“Field tested, approved and recommended by Sealed Power Corp.” The new K-D Piston Ring Compressor is the most versatile, efficient and dependable tool of its kind on the market.

Designed to operate both vertically and horizontally. Fine tooth ratcheting lock permits bands to be contracted in extremely small increments—thumb control provides immediate release of bands to normal position—ready to work on next piston.

\$12.55

SUGGESTED
RESALE

Complete—includes pliers and 6 bands, covering a range of $2\frac{1}{8}$ " to $4\frac{3}{8}$ ". Packaged in strong colorful carton.

Check these features

Select proper size band.

Attach pliers in either vertical or horizontal position depending on type of installation. Lubricate rings.
